Change. Do you dread this word? Are you excited by it? Either way, in today's chaotic world, leaders need to be able to lead their organization through change. But leaders need to first be personally ready for change themselves – and sometimes the impact of change on the leader can be greater than it first appears. In addition to helping CEOs reflect on their own readiness, this workshop will provide key strategies and best practices to personally prepare the CEO to lead change.

# INTERCEPTING ENTROPY

(Wednesday 3:15 pm - 4:30 pm)

#### JOHN REED

Owner & Manager Reposition Pty. Ltd

"Only entropy comes easy." ~ Anton Chekhov

Webster's Online Dictionary offers a definition of entropy as "a process of degradation or running down or a trend to disorder". Max Du Pree in his book *Leadership is an Art* urges leaders of organizations to do all things necessary to "intercept entropy".

Is this counsel relevant for leaders of churches, charities, and Christian organizations? Do we have a fight on our hands to avoid degradation in our organizations? What do we learn from observing other organizations? Do the Scriptures speak to us about intercepting entropy?

This workshop helps delegates recognize the symptoms of entropy, better understand the causes of organizational entropy, and also commit to initiatives to intercept entropy in order to flourish as a vital ministry.

## TOP 10 "MISTAKES TO AVOID" LIST FOR CHARITY BOARDS

(Tuesday 11:00 am - 12:15 pm)

#### **KEN VOLKENANT**

Partner

De Jager Volkenant & Company

As lawyers who work with many charitable organizations (and who have served on more than a few boards ourselves), we have over the years observed the good, the bad, and the ugly of board dynamics and decision making. The legal and compliance requirements that apply to nonprofit corporations and charities have increased in number and complexity, so now more than ever it is important to avoid costly mistakes that distract the board and management from effectively pursuing the primary mission and vision of the organization. The aim of this workshop is to be practical (challenging, but not impossible for lawyers) and to offer participants a few takeaways that will immediately add value to their organizations. As always, questions will be welcomed.

Most nonprofit organization boards of directors want to do the most they can to help the organization they govern be as successful as possible. But sometimes, without even being aware of it, they slip into practices that drastically reduce their effectiveness. This session will show you how to recognize challenges to good governance in your organization and how to implement changes to overcome them.

The goal is to identify the chairperson's key responsibilities that will enable the board to accomplish its primary work. Some group work will be built into the workshop.

## KEEPING IT HONEST, PART 2

(Tuesday 3:15 pm - 4:30 pm)

#### **DOREEN HARVEY**

Human Resources Consultant

While most companies value integrity and honesty, living it out can sometimes be difficult – especially in Christian organizations. Why are honest conversations so difficult? The truth is, avoiding meaningful, honest conversations can be toxic to an organization, creating a foundation of dishonesty in working relationships and in how leaders manage their staff. Honest conversations can be difficult, but they can transform people, relationships, and organizations. In this double-length session, you will learn more about the critical need for truth and honesty in your workplace, and explore a practical approach to having honest, critical conversations.

## CLERGY RESIDENCE DEDUCTIONS – JOB DESCRIPTIONS

(Wednesday 11:00 am - 12:15 pm)

#### **GILBERT LANGERAK**

Manager, Member Support, CCCC

The clergy residence deduction is a longstanding tax relief measure that provides significant benefit to many ministries and their workers.

Recently, there have been revisions to the T1223 Clergy Residence Deduction claim form which require the employer to include a detailed job description for the employee. The Canada Revenue Agency's expectations for taxpayers seeking tax relief at source for the CRD have also been modified.

This workshop will provide an update on these recent changes, review good administrative practices, and outline key factors to consider when creating employee job descriptions to go with the T1223.

# EMPLOYMENT TERMINATIONS: A STEP-BY-STEP GUIDE, PART 2

(Wednesday 3:15 pm - 4:30 pm)

#### **ADRIAN MIEDEMA**

Partner, Fraser Milner Casgrain LLP

This double-length session will provide a practical, step-by-step guide to the thorny area of termination of employment. We will first discuss how by using a proper employment contract/hiring letter at the time of hiring, employers can avoid many of the risks arising from employee terminations. We will then review a checklist of issues and legal risks (such as disability-discrimination allegations) to consider before making the decision to terminate. Participants will learn how to assess the amount of notice or severance to be offered, whether to offer a lump sum or salary continuation package, and when to require a release of claims. We will step through a template employment termination letter, which will be provided to each participant along with the checklist. A case-study will be handed out and reviewed. Lastly, we will discuss what to anticipate if the employee challenges the termination or the package offered.

# IMMIGRATION AND **WORK PERMIT OPTIONS FOR MINISTRIES**

(Tuesday 3:15 pm - 4:30 pm)

#### JEFFREY LOWE

Principal, Lowe & Company

Before the 20th century, missions was 'From the West to the Rest." During the 20th Century, we saw the growth of the indigenous churches in Asia, Africa, South America and other places; the Gospel went "From the Rest to the Rest". In the 21st Century, we are now seeing that God is doing a new thing: "From the Rest to the West"! What does this mean for Canadian ministries and how can you use Canada's immigration programs to bring in missionaries, ministry people, and others on short-term or long-term basis?

In this workshop, immigration lawyer Jeffrey S. Lowe will discuss different options to bring in foreign ministry workers, including:

- > youth participating in working holiday programs;
- > clergy workers doing preaching, teaching, and spiritual counselling;
- administration staff transferred from overseas affiliates;
- other religious or charitable workers;
- immigration (Permanent Residence) options.

We will discuss how charities and nonprofits can structure business activities, including through the "related business" exemption and the proposed Community Contribution Companies.

## FOREIGN ACTIVITIES: HOW TO GET READY FOR A CRA AUDIT

(Tuesday 11:00 am - 12:15 pm)

#### TERRANCE CARTER

Managing Partner
Carters Professional Corporation

CRA audits of foreign activities can be a challenging process for a charity. As such, charities that are engaged in foreign activities should be proactive in conducting a pre-audit compliance review before CRA comes to call. This session will cover how a registered charity can ensure compliance with CRA requirements for charities engaged in foreign activities, as well as explain the steps a charity can take to carry out its own internal compliance review.

# MANAGEMENT REPORTING FOR YOUR EXTERNAL AUDIENCES, PART 2

(Tuesday 3:15 pm - 4:30 pm)

#### JOHN PELLOWE

CEO, CCCC

Both donors and the public are calling for better accountability reports from charities with an emphasis on the question: "How much goes to good works and how much do you pay your executive director?" Charities should take this opportunity to provide better quality reports that help external audiences assess charities based on the criteria that really matter (including strategy and evaluation). Bring your financial statements, annual report, and strategic plan for this "roll-up-the-sleeves" working session and walk out with the elements of an outline for your new management report.

# SOCIAL BENEFITS FOR MISSIONARIES

(Wednesday 11:00 am - 12:15 pm)

#### **DEREK ROSS**

Director Legal Affairs, CCCC

Many Canadian missionaries work in foreign countries far from home, but they still maintain rights and responsibilities as Canadian citizens. Missionaries, and their employers, should be aware of the various benefits available to them in Canada, and how to qualify for them. This workshop provides an overview of various social benefits available in Canada, including Old Age Security, Canada Pension Plan, and other tax benefits, focussing on issues specific to foreign missionaries. Topics covered will also include health coverage issues, eligibility requirements for certain tax advantages, and various legal considerations for missionaries working outside of Canada.

## SOCIAL ENTERPRISE 101: UNDERSTANDING IT AND MOVING FORWARD

(Wednesday 1:30 pm - 2:45 pm)

#### STACEY CORRIVEAU

Executive Director,
BC Centre for Social Enterprise

Social enterprise is a growing practice in Canada, and represents a way for a charity to generate revenues so that it can undertake even more of its mission-related work. Social enterprises are also launched in order to provide training and/or employment for people traditionally excluded from the mainstream economy, and even to fill a market gap that traditional businesses may not be serving.

Stacey Corriveau will guide you through common pitfalls and interesting best practices with respect to social enterprise, including vital information for social enterprise development, some sobering statistics, and next steps for your charity.

# VENTURE SELECTION: CHOOSING THE BEST SOCIAL ENTERPRISE IDEA FOR YOUR CHARITY

(Wednesday 3:15 pm - 4:30 pm)

#### STACEY CORRIVEAU

Executive Director,

BC Centre for Social Enterprise

So your charity is interested in starting a social enterprise: operating a business which can generate profits, create employment, or fill a market need.

Stacey Corriveau will demonstrate a venture selection method that shaves time and money from the process. This workshop will help charities that may be stumped about what enterprise idea is best for their own organization by aligning their goals and values with the business idea itself.

This session will have optimal impact if two or more people from the same charity attend – the purpose is to promote interaction and engagement with the material, so that you can start your own venture selection pathway at the session itself.

(Tuesday 11:00 am - 12:15 pm)

#### **DARREN PRIES-KLASSEN**

Executive Director

Mennonite Foundation of Canada

The competition for charitable dollars continues to get tighter. More charities, economic uncertainty, and discerning donors means you need to be clear and compassionate about your cause or you'll being doing more with less. What strategies can you implement to make sure you get the attention of donors and potential supporters? A charity needs clarity of purpose and a call to action if it wants the dollars to flow its way. We'll look at good and bad examples of each and discuss strategies your staff, board, and volunteers can use to help your cause get positive attention.

(Tuesday 3:15 pm - 4:30 pm)

#### **HOLLY ROSS**

Executive Director, NTEN
Adjunct Expert, Idealware

Email campaigns are a fundraising tool within the reach of even the smallest organizations. An effective way to communicate with donors and raise money without much expense, they're an opportunity to provide reasons and reminders for constituents to give. Campaigns are affordable, and not particularly complicated, but a number of guidelines and best practices can help ensure successful delivery and donor-engagement.

This seminar will walk organizations through the soup-to-nuts process of creating such campaigns. Based on Idealware's technology expertise, this series demystifies each step involved—from strategy to success. Fundraising via email requires an understanding of a number of different elements - designing an email campaign, writing an email, avoiding spam filters, broadcast email tools, online donation tools, and more. We'll walk through what you'll need to know to design your own email fundraising campaign.

# HOW TO ATTAIN SUSTAINABLE, DIVERSIFIED OPERATING REVENUE, FROM REVIEW TO IMPLEMENTATION PART 2

(Tuesday 3:15 pm - 4:30 pm)

#### **GENESA GREENING**

Director of Resource Development Union Gospel Mission, Vancouver

Colleagues, clients, and organizations often ask me,"How can we raise more money?" Over my fifteen years working in the not for profit sector, I have learned that the more important question to ask is "How do we become proficient and excel at what we do so that it becomes effortless to engage people financially and otherwise?" We need to marry the work of programs and services with that of marketing and development, resulting in significant contributions and sustainable revenue.

This workshop will provide an overview of the new guidance and use real life examples from the cases to help participants avoid past mistakes and comply with CRA's new guidance.

# THE ART OF LISTENING: CONNECTING WITH DONORS' MINDS, HEARTS, AND SOULS

(Wednesday 3:15 pm - 4:30 pm)

#### **ERIC FRANS**

National Director of Fund

Development, World Relief Canada

We are all familiar with the amazing work that our ministry is involved with. We have been trained to prepare anything from a 40-minute sermon to a 30-second elevator pitch (just in case we share one with Bill Gates from the lobby to the 3rd floor in a hotel). In fact, we are expert evangelists in sharing the good news of our work, because people need to know.

But do they want to know? What is it that your donors truly care about? Do you actually know why they give to you, and more importantly – do they really know?

Eric Frans will lead you through a case study of how World Relief Canada changed its approach (and its revenue). This potentially paradigm-changing approach will teach you what Eric calls "The Art of Listening"...his momma calls it "learning to shut up."
