- 
- 1) Together as a board, brainstorm answers to the question “What will it take to get us closer to being the board we aspire to be?”
 - 2) Complete the CCCC Board Self-Evaluation Survey and discuss what development areas it reveals for your board.
 - 3) In which areas, knowledge, skill, relationships, or infrastructure, are your board’s greatest possibilities for development? Acknowledge which areas are strengths for you.
 - 4) Plan board development based on your findings, and decide upon resources and timelines that will work for your board. Determine whether or not to hire a consultant.
 - 5) Capture what you learn in a permanent record to teach new board members and to reinforce the learning for continuing board members.
