- 1) Have everyone in your group contribute their favourite metaphor for the church as it relates to church and society. Describe how each one might affect your ministry's strategy or culture. Could there be a downside?
- 2) How does belonging to a counter-cultural community living in exile affect your ministry? Are there advantages to being counter-cultural?
- 3) Does serving from a place of humility suggest any new opportunities or strategies?
- 4) Is there anything you think God wants your ministry to learn while in exile?
