- 
- 1) Have a group prepare and facilitate a group discussion based on these questions:
 - a) What in Scripture relates to our ministry's work?
 - b) What do we know about God and his work that should inform how we think about our work?
 - 2) How does your team determine whether you are asking God to bless the team's plans as opposed to the team discerning God's plan for the team?
 - 3) Have someone research and present the history of your ministry's strategic changes. Have they changed over the years? Do the changes make sense to the leadership team? Are the statements still valid based on your current understanding of God's purpose for your ministry?
