THE CHURCH AS A CHANGE AGENT

As a team, discuss these questions as they relate to your ministry and its environment:

- 1) Which aspect of our society and culture concern you greatly? Why?
- 2) Which theological understandings or doctrinal statements are related to those issues?
 - a) Have someone check out a bookstore for books with a theological approach to the topic of concern.
- 3) Take time individually and corporately to be quiet before the Lord and allow the Spirit to speak to you. Ask the Spirit to give you an understanding of God's ideal future as it relates to the topic, and then to show you what you can do today. Ask him to bring to mind people or ministries you could partner with.
- 4) As a team, what are you prepared to commit to doing?
 - a) Remember that, as a believer, you can take personal action too. Start doing what you can right within your own sphere of influence.
