- 
- 1) Review the blog's categories for different ways to think about leadership issues and, for each of the following audiences, jot down what you think the most immediate leadership-related development needs are:
 - a) Yourself
 - b) Your board
 - c) Your direct reports
 - 2) Searching by category or tag, are there any posts related to your development needs? (If not, send me your suggestion for a new post!)
 - 3) Review the selected posts and make a plan for the order in which you will use them, whether you will lead the discussions yourself or have someone else do them.
 - 4) If you are leading the discussions, review the guides and adjust them to suit your needs.
