### Reflection Questions

1. Think of some specific ministries that are not working on your cause. For each one, note what their mission is and why you appreciate that they are doing it.
2. What steps have you taken to ensure that your cause does not consume your whole life? How do you keep a healthy life that includes family, friends, and interests that are not related to your cause? Should you pay more attention to living a holistic life?
3. Pick three actions from the suggestions under the subheading “Balancing Your Life” and make a plan to do them. Later, you can pick three more.
