### Reflection Questions

1. In looking back over your organization's history, are you able to identify how your ministry met the needs of particular eras?
2. As a leader, do you have your finger on the pulse of our current time in history? Reflect on how that might play out as part of the stewardship of your ministry.
3. How is your ministry meeting the needs of this current era? What aspects of your mission planning have you specifically tailored to function well in our current world, social, and cultural climate?
4. Keep in mind that you are stewarding "one link in a long chain of leaders." Though it can be humbling to realize that, it can also be comforting to know that it is not all up to you. How do you feel about being a part of a team that spans history, past and future?
